PROFESSIONAL SUMMARY

Reporting Analyst with 5+ years' experience designing and delivering KPI dashboards, recurring management reports, and automated reporting solutions across IT, e-commerce, and operations environments. Specialist in Power BI, SQL, and Excel, with proven ability to increase reporting efficiency by 30%, reduce manual processing time by 40%, and improve report delivery timeliness by 20%. Skilled at gathering reporting requirements from stakeholders, translating them into clear KPI definitions and dashboard wireframes, and embedding governance to ensure consistency, accuracy, and compliance. MSc in Computer Science (Queen Mary University of London) and IBM-certified in Data Analytics and Data Visualisation.

CORE COMPETENCIES

▪ Power BI (DAX, Power Query, Wireframes & Dashboards)	▪ SQL: Complex Queries, Joins, CTEs, Aggregations
▪ KPI Definition & Performance Reporting	▪ Excel (Advanced): Pivot Tables, Power Query, VBA
▪ Recurring & Automated Reporting Cycles	▪ Tableau & Cognos — Operational Reporting
▪ Stakeholder Requirements Gathering	▪ Data Validation, Reconciliation & QA
▪ Report Delivery SLAs & Process Improvement	▪ ETL Workflow Design (Talend Open Studio)
▪ Data Modelling & Source-to-Target Mapping	▪ Reporting Governance, Consistency & Compliance
▪ Cross-Functional Stakeholder Communication	▪ Python (Pandas) for data preparation & automation

WORK EXPERIENCE

Data & Reporting Analyst | IT Skills, London, UK

Feb 2025 – Present

- Designed, developed, and maintained Power BI dashboards and report wireframes visualising business KPIs and project metrics, increasing reporting efficiency by 30% and supporting executive decision-making.
- Gathered reporting requirements from cross-functional stakeholders, translating business questions into clear KPI definitions, dashboard layouts, and acceptance criteria.
- Automated recurring report generation using ETL workflows in Talend Open Studio, reducing manual processing time by 40%, eliminating recurring data quality errors, and improving report delivery timeliness by 20%.
- Wrote and optimised SQL queries for data validation, cleansing, and extraction across large datasets, ensuring high accuracy and consistency in published reports.
- Integrated multiple online and offline data sources into a unified data warehouse, mapping end-to-end reporting flows to improve reliability and cross-team report accessibility.
- Embedded reporting governance practices, including version control, data lineage documentation, and validation checks, to ensure compliance with organisational reporting standards.

Data & Reporting Analyst | Skyway Internet Services, Nagaur, India

Apr 2019 – Jul 2023

- Designed and delivered Power BI and Tableau dashboards communicating KPIs and operational performance to non-technical stakeholders, improving cross-team data literacy and reducing ad-hoc reporting requests.
- Produced recurring management reports (daily, weekly, monthly) on operational performance, ensuring consistency, accuracy, and on-time delivery to leadership.
- Automated repetitive data processing and report-generation pipelines using SQL, reducing turnaround time and minimising manual-entry errors.

- Conducted competitor analysis and translated complex findings into clear, audience-appropriate stakeholder reports, increasing company-wide understanding of critical metrics.
- Implemented data validation rules and quality checks at the reporting layer, rapidly identifying and resolving discrepancies to strengthen report reliability.
- Supported data governance practices, ensuring consistency, accuracy, and compliance with internal reporting standards.

IT Technician | BSF (Border Security Force), *Delhi, India*

Apr 2016 – Jan 2019

- Operated secure communication systems and maintained detailed transmission logs, gaining early exposure to structured data handling and operational reporting discipline.
- Provided IT technical support and trained staff on new systems, improving operational efficiency across the unit.

KEY PROJECTS

NorthStar Living — UK Retail Performance Dashboard — *Power BI · DAX · SQL*

- Built an interactive Power BI dashboard reporting retail performance across product categories, regions, and time periods with dynamic KPI filters; designed the layout, measures, and filters around stakeholder reporting needs.

GitHub: [NorthStar-Living-UK-Retail-Performance-Dashboard](#)

HR Attrition Analysis Dashboard — *Power BI · DAX*

- Developed an interactive Power BI dashboard reporting attrition rates and workforce trends across demographic and tenure dimensions, enabling HR teams to monitor KPIs and identify risk factors.

GitHub: [hr-attrition-analysis-powerbi](#)

Harbour Home — Dispatch & Returns Reporting (UK E-Commerce) — *Python · SQL · Pandas*

- Designed reporting on dispatch delays and product returns for a UK e-commerce business, surfacing root-cause patterns in operational inefficiencies and quantifying return rate drivers to inform recurring management reports.

GitHub: [harbour-home-dispatch-returns-analysis](#)

Movie Dataset ETL Pipeline — *Talend Open Studio · SQL*

- Built an end-to-end ETL pipeline feeding cleansed, conformed data into a reporting-ready schema — mirroring the upstream work behind reliable recurring reports.

GitHub: [movie-etl-talend](#)

EDUCATION

MSc Computer Science (Internet of Things & Future Networks)

Sep 2023 – Sep 2024

Queen Mary University of London, UK

BSc Information Technology

Sep 2012 – Jun 2015

Sabarmati University, Gujarat, India
